

DATE FOR YOUR DIARY

27th September 2011

Engineers Ireland, Clyde Road

18.15 to 19.30.

Materials Ireland Seminar
Healthcare acquired infections (HCAI)
Innovative research into photoactive materials
delivers engineering solutions.

This seminar addresses the issues associated with healthcare acquired infections (HCAI), their true costs and innovative solutions. The Crest Centre's work in developing novel photo-active infection-control solutions will be presented by the Centre Director Dr. John Colreavy, while the exploitation of such solutions by Vitra Ireland as an answer to challenging trading conditions, will be presented by Vitra CEO Robert Hickson.

Details relating to event may be found by contacting Dr. John Colreavy at john.colreavy@dit.ie or calling (087) 2783142
